PROFILE

I'm a Computer Science student at Superior University with a deep passion for building efficient backend systems. My expertise lies in PHP, Laravel, and MySQL, where I focus on creating scalable and maintainable solutions that drive business success.

WORK EXPERIENCE

Erbium Tech| Apiril - July (2025)
Khayaban-e-Zafar Lahore Pakistan
Intern Backend Developer

- Developed and maintained RESTful APIs, integrating backend functionality with front-end components for seamless user experiences.
- Collaborated with cross-functional teams to gather requirements, brainstorm solutions, and deliver robust backend features aligned with project goals.
- Implemented secure user authentication and role-based access control systems while managing database interactions using MySQL.

2019 - 2021
FDPP - Pharmacy
Sales Person

- Assisted customers in selecting appropriate medicines and health-related products while ensuring a friendly and helpful experience.
- Maintained daily sales records, handled cash and billing operations, and ensured smooth transactions at the counter.
- Monitored and managed inventory, restocked shelves, and coordinated with suppliers for timely product availability.
